

Jackie Plant

Information, Governance and Compliance Officer.

I joined Manor Hall Academy Trust in June 2022. I was attracted to the role as I felt that this role would have a positive impact on the lives of the children and the young people who the Trust schools educate and I felt that I had a solid skill set to be an effective and collaborative colleague.

Previously, I worked in regulation for around 15 years and therefore this is my first job working with schools and in the education sector. I am working hard to develop my knowledge and to hone my existing skills for the education sector.

I am really looking forward to establishing good working relationships with all of the schools which are part of the Trust as well as everyone connected with them

Outside of work, I enjoy looking after my pet cat, watching and going to the football, meals with family and friends and going on city breaks.
